

Summer School on Grid and Cloud Workflows and Gateways

HURRAY, SUMMER IS COMING SOON!
I THINK I SHOULD DO SOMETHING USEFUL AGAIN...
I REALLY ENJOYED THE SUMMER SCHOOL LAST YEAR.

I WISH I COULD FIND SOMETHING SIMILAR...

WE HAD THAT COOL SUMMER SCHOOL LAST YEAR AT BUDAPEST. DO YOU HAVE ANY PLANS FOR THIS SUMMER?

OF COURSE WE DO! WE WILL ORGANISE A SCHOOL THIS YEAR AGAIN.

THIS YEAR IT IS ALL ABOUT HOW TO EXPLOIT GRID AND CLOUD INFRASTRUCTURES, HOW TO PORT AND DEVELOP APPLICATIONS FOR THEM, AND HOW TO EXTEND THEIR USER COMMUNITIES.

THE SCI-BUS PROJECT WILL TRAIN APPLICATION DEVELOPERS HOW TO DEVELOP WORKFLOWS AND APPLICATIONS FOR VARIOUS DCIS, BASED ON THE WS-PGRADE WORKFLOW CONCEPT AND WILL ALSO SHOW HOW TO CREATE CUSTOMIZED APPLICATION SPECIFIC SCIENCE GATEWAYS FOR DIFFERENT USER COMMUNITIES.

THE ER-FLOW PROJECT WILL EXPLAIN HOW THOSE USER COMMUNITIES WHO ARE ENGAGED WITH ONE OF THE MAJOR WORKFLOW SYSTEMS CAN EXPLORE VARIOUS DCIS VIA THE SHIWA TECHNOLOGY, AND HOW CAN THESE COMMUNITIES SHARE AND COMBINE DIFFERENT TYPE OF WORKFLOWS.

THROUGH SZTAKI CLOUD WE WILL SHOW THE MAIN FEATURES OF CLOUDS. WE'LL EXPLAIN HOW TO BUILD SUCH CLOUD SYSTEMS AND HOW TO ORGANIZE THEM INTO MULTI-CLOUDS, THE ROLE AND USAGE OF CLOUD MARKETPLACES, AND THE INTEGRATION OF CLOUD AND GRID SYSTEMS.

THAT SOUNDS FANTASTIC! CAN THOSE WHO DID NOT ATTEND LAST YEAR'S SCHOOL JOIN TOO?

OF COURSE THEY CAN! WE RECOMMEND OUR SUMMER SCHOOL FOR PHD STUDENTS AND TECHNICAL STAFF MEMBERS, FOR APPLICATION AND WORKFLOW DEVELOPERS, FOR SCIENCE GATEWAY DEVELOPERS AND FOR COMPANIES AND SYSTEM ADMINISTRATORS AS WELL.

WOHOO! AND WHERE AND WHEN WILL BE THIS EXACTLY? I HOPE IT'S BUDAPEST AGAIN! I REALLY ENJOYED THE HUNGARIAN CUISINE AND THE BATHS.

YES, THE LOCATION IS BUDAPEST, 1-6 JULY 2013.
